

Tailored service solutions

The LiebherrCarePacks offer you a wide range of options and advantages.

Economical

Due to regular maintenance, LiebherrCarePacks guarantee a long machine service life and availability of your fleet. This, as well as any repairs, are carried out by us as quickly as possible and increase the resale or trade-in value of the machines.

Liebherr Connect is the central platform for machine networking and enables easy access to machine data as well as digital solutions and services. This guarantees their efficient administration, optimised resource planning and remote monitoring.

Flexible

You are well aware of the requirements of your machine. Choose the appropriate Liebherr CarePack from our range and define the individual contract term.

Save

You pay a fixed amount per operating hour. This ensures planning reliability throughout the entire service life of the machine. LiebherrCarePacks give you the assurance of being prepared for all eventualities.

Convenient

We look after the maintenance of your fleet, you attend to your core business. This is convenient and saves time.

Which CarePack is the right for you?

'Not allowing problems to occur by carrying out regular maintenance is the best way.'

Björn Lundin,
Service technician for Liebherr in Sweden

Tailored service solutions

LIEBHERR

Earthmoving and material handling technology

The Liebherr CarePacks at a glance

Service
CarePack

The CarePack Service includes all preventive maintenance measures and ensures the fault-free operation of your Liebherr machine. The standards are high: The maintenance profile corresponds to the manufacturer's specifications and only Liebherr original parts are used. If a maintained machine is important to you, then the Liebherr CarePack Service is the right choice for you.

Comfort
CarePack

Apart from the maintenance, the CarePack Comfort also covers repairs of the powertrain with Liebherr original parts. Through the protection of the major components, you reduce the risk of the most expensive repairs. The CarePack Comfort gives you a sense of security and you can fully concentrate on your core business.

Premium
CarePack

The Liebherr CarePack Premium is the package for complete peace of mind for machine protection. Apart from maintenance, it also covers repairs to the machine with Liebherr original parts. In the event of damage, the experts from your Liebherr service partner shall ensure that your machine is restored to its full capacity as quickly as possible. The Liebherr CarePack Premium guarantees optimal machine utilisation with cost control at the same time.
