# Wine Storage Sophistication
For Your Home

Quality, Design and Innovation

WKb 4611

LIEBHERR

Optimum humidity: Liebherr wine cabinets guarantee an optimum humidity and this ensured the corks are supple in place whilst still allowing the wine to breathe in its maturing process.
Integrated lock: Integrated in the front control panel for easy access, this sturdy lock protects your fine wine collection.

Wooden shelves: The wooden shelves are ideal for storing Bordeaux bottles. They can be stored in opposite directions to make full use of the capacity.

The **WKb 4611** wine cabinet mimics the conditions of an underground wine cellar. Its solid door creates a dark, undisturbed environment with zero exposure to UV light and heat fluctuations – perfect for maturing wines. This unit ensures a constant interior temperature, which can be adjusted between +5 °C and +20 °C. Wines are always stored safely on our untreated wooden shelves while the activated charcoal filter provides optimal air quality.
