
MyLiebherr – One portal, all services

LIEBHERR

www.myliebherr.com

Welcome to the MyLiebherr customer portal: Come in!

Be it construction machines, mining, mobile and crawler cranes, maritime cranes, material handling technology, gear technology and automation systems or components: at www.MyLiebherr.com you will find everything you need for your machines.

Indeed, the customer portal offers you a broad range of services, digital services and application software. You can also contact Liebherr and its service partners directly.

Once you have registered on the portal, you can manage all your machines, order appropriate spare parts or purchase licenses. In addition, we are constantly working on expanding our range of services for you even further.

Thanks to MyLiebherr you can...

... access all available documents such as spare parts and service documentation or instructions for your machines.

... easily find the most frequently used applications.

... check prices and availability for spare parts.

... view and edit your customer data, authorisations and business relationships.

... check the status of all your orders, whether you ordered via MyLiebherr-Shop, by phone, fax or e-mail.*

And much more!

* If function is available in your product area

Simple, fast and clear

After registering once, you're ready to go. Log in and benefit from continuously updated information and data on your machines. Thanks to single sign-on, you can easily access all the services and apps you need after a single authentication.

The intuitive and well-structured user interface makes it easy for you to find your way around the portal right from the start. Simple processes ensure that you maintain an overview and can complete your tasks quickly.

The most important services and portal functions at a glance

Spare parts catalogue and spare parts shop

Our catalogue contains all spare parts and enables you to identify them quickly and clearly. You can then order these - along with consumables and accessories - around the clock in our online shop.

Product and machine documentation

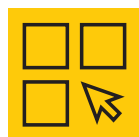

With MyLiebherr you can view important documents for your machines online or download them conveniently. Whether machine and spare parts documentation, manuals or operating instructions - you will find all important information in one place.

Apps and digital services

On our customer portal, you have access to a constantly growing number of digital applications that make everyday work easier and the use of Liebherr machines even more economical and safer.

Licences

Liebherr offers you different licence models. They can be used, for example, to increase the range of functions of Liebherr applications or machines to make them even more efficient and profitable. You can conveniently purchase and manage all licences via the MyLiebherr portal.

One portal, all services

MyLiebherr

Curious now?

Then register today and take advantage of our extensive services and benefits designed to make your work easier.

In just 3 steps you are at your destination:

1. Register on www.myliebherr.com.
2. We will activate your account after successfully checking your details.
3. Log in: Apply for a business relationship with your service partner and register your products. You can now access all appropriate offers.
