## Features

**EasyFresh**

The guarantee of market freshness in the home is our EasyFresh-Safe. Whether it's unpackaged vegetables or fruit, this ensures optimal storage for everything. Thanks to the air-tight closure, the food causes the humidity in the safe to rise. This keeps the food fresh for a long time.

**NoFrost**

When you open your freezer, you want to see frozen food – and certainly not ice and frost. NoFrost protects the freezer compartment from unwanted icing, which consumes a lot of energy and can be expensive. NoFrost means no more tedious and time-consuming defrosting of the freezer compartment, more time for other things – and saving money.

**DuoCooling**

DuoCooling uses two completely separate refrigeration circuits to ensure no air is exchanged between the fridge and freezer compartments. The food neither dries out nor is odour transferred. This means throwing less away, shopping less often, but saving more and greater enjoyment.

**Touch display**

Fingertip control: the touch display enables easy and intuitive operation of your Liebherr. All functions are clearly arranged on the display. By gently tapping a finger, for example, you can easily select the functions or check the current temperature of your refrigerator.

**SmartSteel rear wall**

The rear wall in elegant SmartSteel gives your Liebherr a stylish look and feel. Your food will also love SmartSteel as stainless steel is food-safe and hygienic. SmartSteel also reduces the visibility of fingerprints – making the appearance even more pleasing.

**IceMaker with water tank**

Whether it's for a party or a spontaneous cocktail, the integrated IceMaker means you always have enough ice cubes in stock. With the IceMaker with water tank, you simply fill the removable water tank with water. The MaxIce function allows you to produce up to 1.5 kg of ice cubes a day. The ice compartment separator helps to divide the drawer as you wish, for example, ice cubes on the left, ice cream on the right.
