LIEBHERR

Electronic LCD display: Intuitive navigation of touch electronic control system enables tailored storage options. The digital temperature display can be viewed via the UV tinted glass door.

Presentation shelf: The practical shelf of our Vinidor range fulfils both bottle storage and presentation functions, while telescopic rails enable smooth shelf sliding. Bottles can be stored horizontally at the rear.

LED lighting: The light in the cooling compartments can be dimmed to give a pleasing ambient light inside the appliance.

The Liebherr **WTes 5872** multi-temperature wine cabinet satisfies your thirst for the smartest, most elegant ways to store your precious wines by providing ideal conditions for them to mature successfully. This is achieved with consistent air quality, temperature, and humidity control alongside a quiet, vibration-free storage. Additionally an activated charcoal filter¹ protects your finest collection against odour; best changed once every 12 months.

With three adjustable temperature zones and controlled by an innovative LCD display, you can simultaneously store red wine, white wine, and champagne, all at their optimum serving temperature. Impress your guests with what is a true wine storage unit!
